University of Peloponnese*

Conference President: Professor Maria Tsironi

Organizing Committee President: Assistant Professor Maria Kyriakidou

Scientific Committee President: Assistant Professor Georgios Papagiannis

Oral & Poster Presentations Evaluation Committee President:

Assistant Professor Anna Christakou

Welcome

Dear colleagues & students,

The Physiotherapy Department of the University of Peloponnese is pleased to announce the organization of the 1st International Physiotherapy Conference, which will take place in the city of Sparta from October 10 to 12, 2025.

Our aim is enriching knowledge in Physiotherapy, and as such we have created a scientific program with broad subjects that interests the modern Physiotherapist as well as other specialties involved in interdisciplinary management. The presence of distinguished invited speakers will contribute to the enhancement of knowledge and the strengthening of interdisciplinary collaboration.

We hope that the 1st International Conference of the Physiotherapy Department of the University of Peloponnese will meet your expectations. Your dynamic presence and active participation will contribute to achieving the conference's goals and highlight the dynamics of the Physiotherapy community in Greece!

We look forward to seeing you!

Warm regards,

Professor Maria Tsironi

Focus of the 1st International Conference of Physiotherapy, University of Peloponnese

Vision and Purpose

The 1st International Conference of Physiotherapy of the University of Peloponnese entitled "**Physiotherapy 2025: Redefining the Boundaries - From Neonatal to Elderly Care**" aims to create a scientific event that will cover the entire spectrum of physiotherapy intervention throughout the human lifespan.

Main Objectives

Interdisciplinary Collaboration and Networking

Gathering top healthcare professionals including physiotherapists, occupational therapists, speech therapists, physicians, and researchers from Greece and abroad.

Creating opportunities for professional networking and development of collaborations between clinicians, academics, and researchers.

Scientific Progress and Innovation

Presentation of the most contemporary scientific positions and research data in the field of physiotherapy.

Highlighting innovative techniques and methodologies based on documented research data.

Promotion of new technologies and artificial intelligence applications in physiotherapy practice.

Holistic Approach to Physiotherapy

Coverage of the entire age spectrum, from neonatal age to elderly care.

Exploration of different fields of physiotherapy application, including musculoskeletal, neurological, cardiovascular, respiratory, pediatric, and geriatric physiotherapy.

Practical Application and Experiential Learning

Organization of specialized practical workshops (hands-on workshops) for learning and practicing new techniques.

Conference Program

The Conference proceedings will include:

Round Tables

Clinical Workshops

Oral Presentations

Keynote Speaker

*Physiotherapy Department
School of Health Sciences
University of Peloponnese*

Indicative Thematic Areas

The conference will focus on a wide range of topics, including:

Musculoskeletal Physiotherapy: From Basic Research to Clinical Application

Neonatal Physiotherapy

Pediatric Physiotherapy: Modern Approaches and Innovations

Sports Physiotherapy and Injury Prevention

Complementary Approaches in Physiotherapy

Geriatrics and Physiotherapy

Technological Innovations in Health Sciences

Cardiovascular Physiotherapy

Respiratory Physiotherapy

Multidisciplinary approaches to rehabilitation

Through this multifaceted approach, the conference aspires to contribute substantially to the evolution of physiotherapy science in Greece and to improve the quality of health services provided to all age groups.

The conference is addressed to:

Physiotherapists

Occupational Therapists

Speech Therapists

Nurses

Physicians

Students

Abstract Submission

Those interested in participating with an oral or poster presentation are requested to submit their Abstract (250-350 words) through the electronic form found on the website by September 20, 2025, for review.

Submission Specifications

The abstract must be submitted in English according to the "abstract writing guidelines" and the "abstract submission template."
